

My favorite radio station is K-LOVE. It is one of the very few radio stations that does not subject me to negative comments about our President, filthy jokes, questionable language, commercial advertising, and many other offensive points. Thousands of other people in Oklahoma City, and the entire State, share my viewpoint. Our families can tune into uplifting and inspiring music dedicated to promote clean living and positive ideas instead of being subjected to "hate" music with its violent message or music with sexually explicit lyrics. Music plays a large part in the daily lives of people of all ages. Please do not let the new LPFM broadcast service jepordize K-LOVE's signal and force us to turn off our radios.

Thank you for your consideration.
Debbie Hunt
